Empire Envision Homebuyer Journey

Empire HOMES

You've signed your contract and made your deposit, now what's next? Here's what to expect, every step of your journey to your new home.

1 Welcome & Contract Review

Welcome to Empire! Right after you've signed your contract and your earnest money deposit is received, you'll find a welcome email in your inbox with a copy of your executed contract as well as an overview on the Empire Homes Homeowner Portal App with your next steps.

2 Financing

Within 3 days of signing your contract, you'll need to secure your financing by applying for a loan. Within 15 days, you'll need to provide a full commitment letter with conditions disclosed. Cash buyers must submit proof of funds. With financing in hand, we're ready to get into construction.

3 Pre-Construction Meeting

Now it's time to start planning. If you purchased pre-construction, within 7 days of accepting your contract you'll meet with the Project Manager to go over plans, timelines, and make any electrical upgrades (50% deposit required). Don't worry, your Project Manager will go over options and answer any questions.

4 Design Appointment

Ready to make it your own? You'll visit our Homebase Design Center to preview interior finishes, consider upgrades and put it all together with our experienced design team. You'll complete the sign-off process within 30 days of signing your contract (50% deposit required for any upgrades).

5 Construction Phase

As the walls go up, we'll keep you in the loop. Your Sales Consultant or Customer Care Representative will communicate major milestones such as framing, drywall, cabinets, tile and flooring installations.

6 Pre-Drywall Meeting

You've been waiting for a look, here's your chance. Once the mechanical installations are complete, you'll attend a pre-drywall meeting with your Project Manager to review options and take pictures.

7 Closing Setup

With construction nearly complete, you'll receive an email with your closing date, settlement or title company details, New Home Orientation date and time, and utility set-up instructions. Are you ready for move-in?

8 New Home Orientation

Here's where we show you how it all works. During your New Home Orientation, your Warranty Services Representative will walk you through and review your new home features and warranties as well as finalize any 3rd-party inspection reports.

9 Closing Day

Today is the day you get your keys! Before closing, however, you'll take a verification walk through with the Project Manager to ensure all agreed upon repairs from the New Home Orientation are completed. Then you'll sign the paperwork and officially take ownership. Welcome home!

10 Post-Closing & Warranty Support

After closing, we're still here for you. As part of our 2-10 Home Warranty, Empire provides a 1-year builder warranty, 2-year systems warranty, and 10-year structural warranty—with a streamlined process for submitting and tracking any warranty requests.
